Mobile India Expo 2022

India is currently the world's second largest market for mobile phones. India's mobile phone industry is also the fastest growing in the world and the outlook for the next five years remains very positive.

With the emergence of new technologies, the market is poised to cross the 200-million-mark when it comes to smart phone users. The increased adoption of mobile devices in India, coupled with growing mobile Internet penetration and the rising uptake of on-demand videos, video calls, WFH, and music streaming services is projected to boost the growth of the mobile accessories market.

With a strong focus on mobile devices and accessories, Mobile India expo has become an unparalleled buyer-seller platform that offers a valuable opportunity to brand owners, manufacturers, OEMs / ODMs, contract manufacturers, as well as importers & exporters to network with distributors, wholesalers, channel partners, resellers, retail chains, traders, e-tailers, retailers, corporate buyers, stockists and, of course, end users.

Testimonials

MANDEEP ARORA

Co-founder, UBON

"Participation at Mobile India Expo has always been a great experience. It provides an amazing live platform to showcase our innovative and technological strengths and capabilities to a variety of audiences and helps us explore a myriad of products from across the country. We would like to thank the organizers earnestly and look forward to participating again, in order to contribute towards the overall growth of the economy."

PARESH VIJ

Founder & Director, U&I

"We are pleased to be associated with the Mobile India expo, as we had an ideal platform to display our innovative products and explore other newer technologies. We received a lot of enquiries and targeted visitors as, the footfall was unexpectedly amazing, even during COVID times. Congratulations to the organizers for such a safe and successful event."
